

What To Expect

Here is a quick overview of what you
can expect as a student at
The Becoming Center

Relationship With God

Bible Classes

Students attend seven (7) Bible classes each week varying between guest speakers, video teachings, and live classes from Pastor Allen Bailey and the counselors on staff. The heart of the program, here they learn how the Word of God equips them with all the tools they need to get free and stay free and step into a victorious life.

Church Services

Sunday and Wednesday services by Pastor Allen Bailey. His primary grace being to teach people about sonship, the students will learn their identity in Christ and their right standing with God as found in the Bible.

Personal Study

Ample time, tools, and opportunity are provided for the students to study the Word of God for themselves and develop their relationship with Jesus Christ.

Praise and Worship

The students participate in daily praise and worship, spending time in the presence of God

Integration

Service

The students learn to serve according to their capacities in various areas needed to help a church service run smoothly. Ranging from greeting and ushering to cleaning to production, they are prepared to become not just pew-warmers, but active members of their home church after graduation.

Fellowship

The students are exposed to and learn to interact with a loving church family. Building relationships with and enjoying the company of like-minded believers is a key in the success of any Christian!

Our Facility

Common Areas

The common areas include the kitchen, television area, bedroom, and restroom. Everything in The Becoming Center is new and in excellent condition thanks to our generous partners and students are expected to respect and take care of all property.

Recreational Areas

Students will have access to recreational activities in their free time. Currently, these include free weights, basketball, air hockey, and others.

Responsibilities

Chores

After classes each day the students will participate in the daily/ weekly/ monthly chores to help maintain the facility and to learn work ethic and habits of excellence. Chores include doing dishes, cooking, cleaning, mowing the lawn, and weed-eating.

Maintenance

As with anywhere, occasionally things such as painting or carpentry related work will need to be done. When necessary, students will help in repairing, building, or modifying parts of the facilities.
